This report provides information on the number of examinees, from your school and from all U.S. and Canadian medical schools, who attempted Step 2 CS for the first time in the 2006-2007 academic year and whose results were reported through August 29, 2007. This report also provides information on the number and percent of examinees, from these same groups, who passed Step 2 CS. Please note that in order to pass the Step 2 CS Total Test, it is necessary to pass all three of the subcomponents: Integrated Clinical Encounter, Communication and Interpersonal Skills, and Spoken English Proficiency. Information on passing examinees is provided for Step 2 CS Total Test and for each of these subcomponents.

For those first-time examinees who failed and then subsequently repeated Step 2 CS during this same period, the number tested and the number passing, on the most recent repeat attempt, are included. Examinees who asked that their individual results not be provided to their school are excluded from the school data for this report, unless the number of examinees making this request was five or greater.

Accompanying this table is a graph that provides information regarding the performance of first-time examinees from your school for the three subcomponents of Step 2 CS. Please note that the graph is only provided if at least 20 first-time examinees from your school took Step 2 CS in the academic year 2006-2007.
