The Clinical Skills Passports identify specific diagnostic skills that must be successfully learned and demonstrated by each student and observed and documented by a faculty member (or, for some items, an upper-level resident). The goal of this program is to improve the clinical skills of our students, to encourage bedside teaching and feedback, and to enhance the exposure of our students to faculty on the clinical clerkships. It is the responsibility of each student to ensure that the skills are demonstrated and observed and the passport completed before the end of the clerkship period.
Skills *directly observed* and findings confirmed by faculty:

**Physical Examination Skills**

- Examination of Knee __________/________/___________
- Examination of Back __________/________/___________
- Examination of Skin __________/________/___________
- Examination of ENT __________/________/___________

**Clinical Skills**

Demonstrate appropriate patient education (stress reduction, smoking cessation, compliance with taking medications, etc.) __________/________/___________

---

Skills demonstrated by presentation to faculty:

**Preventive Health Care**

- Develop a plan for preventive health care for an adult
  Faculty Signature*/Date/Comments: __________/________/___________
- Develop a plan for preventive health care for a child
  Faculty Signature*/Date/Comments: __________/________/___________

Constructive feedback for students by faculty

- Mid-month review: __________/________/___________
- End of rotation review: __________/________/___________

---

I, ______________________, state that the Passport items indicated have been completed with honesty and integrity.
